Report on One-Day Workshop on Assembly and Use of Foldscope

Date: 28th February 2019

Organized by: Department of Biotechnology, Kaliabor College

On 28th February 2019, a one-day workshop on the assembly and use of Foldscope was conducted, introducing participants to the fascinating world of microscopy using affordable and portable Foldscope devices. The workshop featured two prominent facilitators, Dr. Abinash Kale from Pune, Maharashtra, and Dr. Lalit Mohan Goswami from Nowgong College. A total of 65 enthusiastic participants attended the program, eager to explore the capabilities of this innovative tool for scientific discovery. Dr. Abinash Kale, Pune, Maharashtra is a renowned expert in the field of microscopy and an advocate for accessible science education, shared his knowledge and practical insights into the assembly and use of Foldscope. His expertise was invaluable in guiding participants through the intricate process of constructing and utilizing the Foldscope microscope. Dr. Lalit Mohan Goswami, Nowgong College is a respected figure in the local academic community, collaborated with Dr. Kale to facilitate the workshop. His contributions included practical demonstrations and sharing his experiences in applying Foldscope technology for various research purposes. The one-day workshop was designed to provide participants with hands-on experience in assembling and operating Foldscope microscopes. The workshop commenced with a comprehensive session on assembling Foldscope devices. Dr. Abinash Kale guided participants through the step-by-step assembly process, ensuring that each participant successfully constructed their own Foldscope microscope. This hands-on activity promoted a deeper understanding of the device's components and functionality. Dr. Lalit Mohan Goswami delved into the applications of Foldscope technology in various scientific disciplines. He showcased how Foldscope could be utilized for fieldwork, research, and education, emphasizing its role in democratizing microscopy and making science accessible to all. The one-day workshop on the assembly and use of Foldscope devices served as a platform for knowledge dissemination and hands-on learning. The workshop not only empowered individuals to harness the power of microscopy but also contributed to the promotion of accessible and affordable science education.
