Seminar Presentation

The sixth-semester students of the Department of Mathematics, Kaliabor College, presented a seminar on the theme “**Metric Spaces as a tool for Mathematical analysis**” in the presence of faculty members. Name of the participants and their respective topics are given below:

Name of the Student	Roll No	Name of the topic
Abhilash Kakati	US-221-300-0008	Concepts of open and closed balls in metric space and their application
Smriti Rekha Borah	US-221-300-0009	Metric space: its introduction
Rozi Katuwal	US-221-300-0011	Concept of homeomorphism between metric spaces
Taniya Paul	US-221-300-0012	Isometry in metric spaces and their physical interpretation
Biplab Mandal	US-221-300-0016	Sequence in metric space and their convergency
Asad Ali	US-221-300-0022	Continuous mapping from a metric space to another metric space
Priya Devi	US-221-300-0040	Subspaces of a metric space and their properties

The seminar was well-structured and informative, encouraging active participation and discussion. Faculty members commended the students for their efforts and provided valuable feedback, making the session engaging and insightful.
