Survey Assignment

Assignment Title:

“Survey Report on Mathematics Phobia in the Community.”

Assignment Description:

As part of your academic activity, you are required to conduct a survey in **your village** to understand the **fear of mathematics among students or community members**. The goal is to identify how common **math anxiety** is, **what causes it**, and **how it can be reduced**.

Instructions:

1. Prepare a simple questionnaire (minimum **10 questions**) focusing on the fear of mathematics.
2. **Collect responses** from at least **30 individuals** (preferably students from class 5 to class 12).
3. **Analyze the data** to find **common patterns, causes, and suggestions**.

Present your findings in a short report including:

- Introduction
 - Objectives
 - Methodology
 - Photographs of the survey with **geo-tagged**.
 - Analysis
 - Key findings
 - Conclusion
 - Suggestions
4. Submit the report in **written or typed format** with a presentation.
 5. Last day of Submission: **4th August, 2025**

Assignment submission is mandatory.
