Report on Lecture Programme on Psychotic Disorder: Understanding Mental Mechanisms and Symptoms

Date: October, 30, 2018

On October 30, 2018, an insightful lecture program on "Psychotic Disorder: Understanding Mental Mechanisms and Symptoms" was conducted, hosting 18 participants. The event aimed to enhance awareness and knowledge regarding psychotic disorders, providing valuable insights into the associated mental mechanisms and symptoms. Eighteen individuals, including students, professionals, and those interested in mental health, actively engaged in the lecture program. The diverse group contributed to a dynamic exchange of ideas and perspectives on the complex topic of psychotic disorders. Dr. Rita Rani Talukdar, a distinguished faculty member from the Department of Psychology at Gauhati University, served as the esteemed resource person for the lecture. With expertise in the field of psychology, Dr. Talukdar brought a wealth of knowledge and experience to elucidate the complexities of psychotic disorders. The lecture program encompassed a comprehensive exploration of psychotic disorders, focusing on the underlying mental mechanisms and the manifestation of symptoms. Dr. Talukdar elucidated the diagnostic criteria, treatment modalities, and societal implications associated with psychotic disorders. The interactive session allowed participants to pose questions, fostering a deeper understanding of the subject. Participants gained valuable insights into the intricacies of psychotic disorders, enriching their understanding of mental health. The program succeeded in creating awareness and reducing stigma surrounding mental health issues. Attendees left the session equipped with a more informed perspective on psychotic disorders and their impact on individuals and society.
