Report on Lecture Programme on Emerging Trends in Educational Technology

Date: November 17, 2018

A lecture programme on "Emerging Trends in Educational Technology" was conducted on November 17, 2018, featuring Dr. Mayuri Sarmah, Assistant Professor from the Department of Education, as the resource person. The event, attended by 18 participants, provided valuable insights into the rapidly evolving landscape of educational technology. Dr. Sarmah commenced the session by emphasizing the pivotal role of technology in reshaping the educational sector. She delved into contemporary trends, showcasing innovative applications and tools that can revolutionize teaching and learning methodologies. The participants were introduced to cutting-edge technologies such as virtual reality, augmented reality, and artificial intelligence, and their potential to enhance educational experiences. The lecture also addressed the importance of adaptability in integrating technology into the curriculum. Dr. Sarmah highlighted the need for educators to stay abreast of evolving trends and discussed strategies for effectively incorporating technology in diverse learning environments. Practical examples and case studies were presented to illustrate successful implementations of educational technology in various educational settings. Throughout the programme, participants engaged in interactive discussions, sharing their experiences and insights on the challenges and opportunities presented by technological advancements. Dr. Sarmah encouraged a collaborative learning environment, fostering a sense of community among the participants. The session concluded with a Q&A segment, allowing participants to seek clarification on specific topics and explore practical applications for their respective teaching contexts. Attendees left the lecture with a deeper understanding of emerging trends in educational technology and a renewed enthusiasm for leveraging these tools to enhance the learning experience.
