ABOUT THE COLLEGE

With the motto "Knowledge with Values", Kaliabor College, established in 1969, is a NAAC A-graded institution situated in Nagaon district of Middle Assam.

The college is the only institution of higher education in the sub-division and offers undergraduate courses in Arts, Science and Commerce along with vocational courses in Small Tea Garden Management and Tourism and Service Industry, Bachelors in Computer Application and Business Administration. The college also offers postgraduate courses in Commerce and Education.

We offer our heartiest welcome to you for the two day national seminar on 'REVIVING TRADITIONAL PRACTICES IN LIGHT OF CLIMATE CHANGE' organised by the IQAC, Kaliabor College in joint collaboration with Assam Science Technology and Education Council, Ministry of Science and Technology, Government of Assam.

Dr. Uttam Kumar Baruah,
Principal

Dr. Basistha Kalita,
Coordinator, IQAC

The rapid rise in the world's population and our ever-growing dependence on fossil fuel-based modes of production has played a considerable role in the growing concentration of greenhouse gases in the atmosphere. As a result, global temperatures are increasing, the sea level is rising and precipitation patterns are changing, while storm surges, floods, droughts and heat waves are becoming more frequent and severe. Subsequently, agricultural production is decreasing, freshwater is becoming more scarce, infectious diseases are on the rise, local livelihoods are being degraded and human well-being is diminishing.

This seminar is an attempt to provide a platform for researchers offering solutions for mitigating climate change based on traditional knowledge and to highlight the relevance of old traditional practices in the context of climate change & sustainable development

This academic endeavour expects participation of research work from different stakeholders of the nation. And since climate change and revamping traditional practices are subject matters concerning all the schools of thinkers, the seminar is multidisciplinary in nature.

CONCEPT NOTE

1. Traditional knowledge systems as a solution for climate change.
2. Traditional practices and sustainable environment
3. Traditional practices and India's goal of Net Zero Carbon Emission.
4. Traditional use of Biodiversity as food and medicine.
5. Traditional economic relationships providing low carbon foot print solutions.
6. Review of ancient literatures as solutions for climate change.
7. Digital documentation of traditional knowledge on climate related issues.
8. Traditional knowledge and marketability.
9. Traditional cultural beliefs and its relevance in the present day.
10. Traditional practices & its knowledge sharing in the present day education system.
11. Entrepreneurship opportunities and traditional practices.
12. Tourism and Traditional practices.
13. Rebranding of traditional trade practices.
14. Revamping Traditional Sports.
15. Any other subject relevant to the broad scope of the seminar.

THEMES OF THE SEMINAR
