## Report on Anti-Tobacco Awareness Program: "Tobacco Control and Cancer Prevention Awareness Programme" at Kaliabor College

Date: June 25, 2019

Location: Kaliabor College

Organized by: National Service Scheme (NSS) unit

On June 25, 2019, Kaliabor College's National Service Scheme (NSS) unit organized an awareness program on anti-tobacco titled "Tobacco Control and Cancer Prevention Awareness Programme." The aim of this program was to educate participants about the harmful effects of tobacco use and to promote the importance of tobacco control for cancer prevention. Despite the modest number of participants, the event played a significant role in raising awareness about the risks associated with tobacco consumption. Eight participants from the college attended the program apart from the NSS members. The "Tobacco Control and Cancer Prevention Awareness Programme" organized by the NSS unit of Kaliabor College was a small-scale but meaningful initiative in raising awareness about the detrimental effects of tobacco consumption. The program provided valuable information on the health risks associated with tobacco and the crucial role of tobacco control in preventing cancer. While the number of participants may have been limited, the impact of such awareness programs extends beyond the immediate audience. They serve as a foundation for ongoing efforts to combat tobacco addiction and raise awareness about cancer prevention.
